The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal and, where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or if all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascr.usda.gov/complaint_filing_cust.html, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov.

Individuals who are deaf, hard of hearing, or have speech disabilities and wish to file either an EEO or program complaint please contact USDA through the Federal Relay Service at (800) 877-8339 or (800) 845-6136.

Welcome to the NEW MEXICO “Child and Adult Care Food program”. We are happy that you have inquired about participating in this nationally sponsored program in support of providing New Mexico’s participant in your care with healthy and nutritious meals through the administration of the CACFP program. Here are some helpful *facts* and reminders that will make your participation in the program successful.

What is the Child and Adult Care Food Program?

The Child and Adult Care Food Program (CACFP) is a federally funded program that provides reimbursement for healthy meals and snacks served in child and adult day care facilities. CACFP reimburses participating day care centers for meal costs and provides them with USDA commodity food. The program generally operates in childcare centers, outside-school-hours care centers, adult day care centers and some emergency shelters. Day care providers in the CACFP must serve meals that meet federal guidelines and must offer meals to all enrolled participants. First authorized as a pilot project in 1975, the program was formerly known as the Child Care Food Program. It was made a permanent program in 1978, and the name was changed in 1989 to reflect the addition of an adult component. CACFP is administered at the Federal level by the Food and Nutrition Service (FNS), an agency of the U. S. Department of Agriculture. The State agency, CYFD/FNB oversees and administers the program at the local level.

What types of institutions receives benefits?

Benefits are provided primarily by Child Care Centers. Sponsors include licensed or approved non-residential, public or private non-profit childcare centers; Head Start centers and Emergency shelters. For-profit childcare centers may also participate if they meet certain criteria for serving low-income children. Licensed Adult Day Care Centers that are operated by public agencies for functionally impaired adults may receive cash reimbursements and commodity foods under the adult component of the CACFP.

Who qualifies for free or reduced meals?

Child and Adult day care centers must offer meals to participants with out charge and must qualify them as free, reduced or paid, based on the income eligibility guidelines. Those from families with income at or below the poverty level may qualify for the free rate; those from families with income at or below 185% of the poverty level may qualify for the reduced rate; and all others will qualify as “paid”. See a copy of the current guidelines for the current rates.

The goals of the program are to:

- Ensure that well-balanced, nutritious meals are served to children and adults in care
- Help participants learn to eat a wide variety of foods as part of a balanced diet
- Provide reimbursement for meals served

- Provide technical assistance and guidance on food service operation, program management and Recordkeeping.

Why CACFP is Important?

Young children and participants need good, nutritious food to help them learn and develop normally. Receiving regular, well-balanced meals is as important in daycare as it is at home. Along with motor and developmental skills, proper eating skills are developed early. Children learn nutrition as they eat. Children can learn good, healthful eating habits when they are young. Nutrition education during meals snacks or at play can serve to begin a lifestyle of healthy eating.

Adult day care centers offer a variety of services to individuals who need special attention that might otherwise be available only in an institutional setting. Providing nutrition services to safeguard the health and nutritional well being of these adults is one of the components of care in the adult day care setting.

Independent centers and sponsoring organizations enter into agreements with the State Agency to assume administrative and financial responsibility for CACFP operations.

Child Care Centers

Eligible public or private nonprofit child care centers, outside-school hours care centers, Head Start Programs, and other institutions which are licensed or meet the licensing criteria for Child Care may participate in CACFP independently or as sponsored centers. For-profit or proprietary centers may participate if at least 25% of the children enrolled or 25% of the licensed capacity which ever is lower is funded by childcare subsidized day care benefits, or 25% of the children enrolled qualify for free or reduced price meals under the CACFP guidelines for any given month.

Adult Day Care Centers

Public or private nonprofit adult day care centers which provide structured, comprehensive services to nonresidential adults who are functionally impaired, or aged 60 or older, may be eligible to participate in CACFP as independent or sponsored centers. For-profit centers may be eligible if at least 25% of their participants receive benefits under title XIX or title XX. Centers must meet the licensing criteria and be approved by the Department of Health.

After School at Risk Care Programs

Programs that offer after-school care may be eligible to participate in the Child & Adult Care Food Program. Programs must offer regularly scheduled educational activities that are structured and supervised. In addition, program sites must be located in an area served by a school where at least 50% of the students enrolled are approved for free or reduced price meals. This is referred to as an Area-Eligible program. Snacks served in area-eligible after school snack programs receive the free rate of reimbursement for each snack served. After school programs that participate in CACFP may claim reimbursement for meals served on vacation and in-service days throughout the school year.

Emergency Shelters

To participate in CACFP, an emergency shelter must provide residential and food services to homeless children and their parents or guardians. It must be a public or private nonprofit

institution. Unlike most other CACFP facilities, a shelter does not have to be licensed to provide day care. However, it must meet any health and safety codes that are required by state or local law.

Each residential child 18 years of age and younger may receive up to three reimbursable meals each day, on weekdays and weekends. Residents of any age who have disabilities, regardless of their age, may also receive CACFP meals and snacks at the emergency shelters where they reside.

Residential children who receive their meals at the shelter are automatically eligible for free meals and snacks. There are no income eligibility application forms for their parents or guardians to fill out. All reimbursable meals and snacks are served in-group settings, at no cost to the child or to the child's parents or guardians.

Homeless shelters receive reimbursement payment for serving meals and snacks, which meet Federal nutritional guidelines, to eligible children. The payment rates are based on the numbers of meals and snacks served at the free rate for day care centers. Shelters also receive commodities or cash-in-lieu of commodities for each CACFP lunch or supper they serve.

Commodities or Cash-in-lieu of Commodities

In addition to cash reimbursement, USDA makes donated agricultural commodities or cash-in-lieu of commodities available to institutions participating in CACFP. Both the Family Nutrition Bureau and Nutrition Services Bureau have agreed that cash-in-lieu is the best method to use to serve day care centers in New Mexico, since there are currently very minimal centers participating in the commodities program.

Recordkeeping

Recordkeeping is an essential element of CACFP. Records must be kept to document program activity and to ***support the validity of the claim for reimbursements***. The minimum Records, which are required to be maintained for CACFP, include the following:

- Program Application, Agreement and Renewals
- Training Efforts
- Monitoring Efforts
- Participant Enrollment Records
- Income Eligibility Information
- Attendance Records (time in - time out sheets)
- Meal Count Records (point of service)
- Income & Expenditure Sheets (financial tracking)
- Nutrition Education Documentation
- Claims for Reimbursement
- Meal pattern requirements (menu record books)

To be eligible to participate in CACFP, institutions and organizations must demonstrate that they are financially viable, administratively capable in the administration of the program, and ensure that proper internal controls are in place to ensure accountability.

Included in this packet is some essential information and standard forms that will help you beginning with your recordkeeping for the CACFP.

Record to maintain:

Income and Expense: Federal regulations require that all food reimbursement monies received be spent on the program, and for the benefit of the participants/children. In addition, State guidelines require that you spend at the minimum 50% of the reimbursement monies specifically on food purchases, and recommend that the percentage be 70% or more. The remaining percentage of the reimbursement monies may be spent on non-food items, such as cook's salaries; food service equipment or other CACFP related expenses that are allowable. Please ensure to keep all receipts for food and other program expenditures by each month, and ensure that all receipts have expenditures itemized. Enclosed with this packet is a sample Income and Expense form for your use to keep track of all expenditures for food and non-food items. If you are not meeting the minimum 50% requirement, you might consider buying a wider variety of fresh fruits, vegetables and meats for the children.

Attendance Records: Records that identify the participants' full name and the hours of attendance must be maintained daily. Enclosed with this packet is a sample daily attendance record for your use. The time in and out columns should be accurately recorded and legible. The attendance record sheet should also be totaled on a daily basis so that the average daily attendance (ADA) can be recorded on the monthly claim. Please see the enclosed sample claim form and the instruction page for calculating the ADA included in this packet.

Meal Count Records: A separate meal count record must be maintained on a daily basis that identifies the participants' full name and meal type that each is served during the day. **Note:** (only three meals per participants' per day may be claimed) Sample meal count records are attached and should be used. This form must be completed at the time of meal service to ensure accurate recording of meals recorded by staff. This record will also serve as part of the documentation to validate your claim.

Income Eligibility Applications: Every participant or guardian should be given the opportunity to fill out an income eligibility application (IEA), but your center is only required to have an IEA on file for every participant who qualifies for a free or reduced price meal. If a participant or guardian knows they do not qualify for a free or reduced price meal and refuse to fill one out, an IEA is not necessary. Simply keep a list of those entire participants who are ineligible for a free or reduced priced meal and keep that list on your files along with the Income Eligibility Applications for all free and reduced priced eligible participants.

Menu Record Book: (*Meal pattern requirements*)

For Children 1-12 years: This book is to be filled out daily and should reflect the actual amounts of food prepared for each meal. Columns 2, 3 and 4 should reflect the menu items, serving size for the age group participants that you plan to serve for the appropriate

meal or snack. Column 5 should list the actual food served and the amounts of each food item that were prepared. Column 6 should list the number of meals prepared for each participant children and adults. Remember you must include the adults if they are consuming a meal during meal service, when planning, preparing and recording the amounts of food used. This is the *only* record that shows what foods were served and how much food was prepared for each meal, and will be used along with food purchase receipts to confirm adequate menu and food production. Inaccurate or lack of entries in this book will result deficiencies.

A sample menu record is enclosed with this packet. Since most children enrolled in day care centers are between 3 and 5 years old, the serving sizes used and recorded are for this age group. If the majority of enrolled children are 2 to 3 years old, and you choose to use the serving sizes for this group on the menu record, you must also ensure that enough food is prepared to meet the serving size requirement of the 3 to 5 year olds. This is why most centers prepare the serving size for 3 to 5 year olds.

The Adults Menu Record Book is very similar to the children's MRB. Please contact the State Agency to request an Adult MRB if needing one.

For Infants: The MRB for Infants and the Feeding Infants Guide together contain the tools you need and a wealth of information to help you to feed infants well and successfully on the CACFP program. Feeding infants well is so important in setting the stage for a lifetime of healthy eating habits. Babies need to be talked to, played with, nurtured, held, and fed appropriately. Brain development is affected by the care babies receive and the foods they eat. A sample menu record with serving sizes is enclosed in this packet.

The New Mexico Food Purchasing & Production Guide:

This is a tool that can be used to help you buy and use appropriate amounts of foods when preparing meals to meet the Meal Pattern Requirements. A sample "How to use the Food Purchasing & Production Guide" is included in this packet and explains how this book is used. Please refer to this book and use it as a guide when preparing meals along with the USDA Food Buying Guide.

A list of NON-CREDITABLE foods is included in this packet. These foods may not be used to meet meal pattern requirements. These foods are not to be served, because of low nutritional value. However, certain items such as condiments may be served and they will be reimbursable, credited toward food cost.

Claim for reimbursement:

The claim for reimbursement is to be completed and sent in to our office by the tenth of each month. This claim must be filled out correctly and completely in order to be processed. A copy of the claim and a detailed instruction sheet giving step-by-step instructions is included in this packet. Please ensure that only authorized persons sign this claim form. Only those persons appearing on the *Certificate of Authority* form can sign the claim form. Any other signatures will invalidate the claim.

For-profit centers are required to have on file a copy of the placement agreement with the State agency that is subsidizing childcare for those enrolled children whose families are receiving childcare assistance. These proprietary centers need to show that they received childcare assistance monies for at least 25% of their enrolled children or that 25% of the children qualified for free or reduced price meals under CACFP guidelines in order to claim reimbursement for any given month.

Training and Monitoring Efforts

Remember that the food service operation for each Day Care Center under your sponsorship is required to have three monitoring visits conducted during the program year. The first of these monitoring visits must be made within the centers first six weeks of operation, and not more than six months can elapse between each monitoring visit. In addition, all administrative and operational staff is required to be trained in program requirements annually.

The Principal Administrator overseeing the operation of the CACFP or other qualified staff member should be the one to conduct this training and monitoring. You should follow the training and monitoring scheduled plan outlined as in the management plan that you submit with your application. Enclosed in this packet is a copy of the monitoring and training forms with guidance on each to be used for documenting the sponsor's efforts. Please use the follow up form when conducting follow-up visits to record that previously cited problems have been corrected. Please duplicate these forms and use them when conducting your monitoring visits.

If you maintain the records noted on a daily basis and in an orderly manner, preparation of the Claim for Reimbursement will not be difficult to complete and will be accurate. If you have any questions or need clarification, please call our staff at (505) 827-9961. We look forward to visiting your center in the near future once the application approval process is complete to provide nutritional training and any further technical assistance that you may require, or to make arrangements to register for the next available "New Center Orientation Training".

RECORD
TO
MAINTAIN

Instructions for Completing:

INCOME & EXPENSE (Self Monitoring Form)

According to Federal Regulation 7CFR CH. 11 (1-1-00 Edition) 226.15 (e) 14, documentation must be maintained to ensure that all Program reimbursement funds are expended:

- (i.) solely for the conduct of the food service operation; or
- (ii.) to improve such food service operations, principally for the benefit of the enrolled participants.
- (iii.) The State Agency requires that not less than 50% of your reimbursement, be spent on food cost (Creditable & Reimbursable) and the remaining percentage (if applicable) may be spent on non-food items, cooks salaries, kitchen equipment, etc.

In order to assist you in complying with these regulations, we have developed the attached form for you to complete and maintain on a monthly basis.

Heading Record the fiscal year being monitored. Fill in the name of the organization and Agreement number, make sure it's legible. **Indicate if there was any Cumulative Balance carried over from the prior year.**

Column #1 Record the reimbursement (\$) amount received for that month listed. If you have to adjust your claim, reflect the change in the appropriate month.

Column #2 Monthly expenses should be itemized in this column. Back up documentation of receipts, invoices, payroll etc., should be on file to support these figures. Make sure expenditures identified in this column relate to the approved percentages on your approved budget on the management plan, for the fiscal year you are monitoring.

The State Agency requires that not less than 50% of your reimbursement be spent on food cost (Creditable & Reimbursable). Please indicate on the line available (% SPENT ON FOOD) what percentage was expended for the month. Figure this by taking the total **Food Cost** and dividing by the total **Amount of reimbursement received**. This will give you the total percentage (%) of the reimbursement spent on food.

Column #3 Record the total amount of milk purchased for each month, such as # of gallons, # of pints, etc. Include the cost of the milk purchased in the reimbursable food line item in column #2. These will help determine if enough milk was purchased for the total number of meals claimed that required milk.

Column #4 Record the carryover difference between the total in column #2 and the amount in column #1. This will help you identify if 100% of your reimbursement for each month was expended or if the organization had a negative or positive balance at the end of each month.

Column #5 Record the cumulative balance (if any) in order to determine at the end of the fiscal year (September) if the organization expended the total amount of reimbursement received from CACFP. Cumulative balance is determined by adding the positive or negative figures from the carry over on a monthly basis.

NOTE: Please be aware that no more than 25% of the total reimbursement received for the year, can be carried over to another year. Funds carried over into the next fiscal year must be spent on allowable expenses by December 31.

CHILD AND ADULT CARE FOOD PROGRAM
Letter to Households

Instruction: This letter must accompany the Income Eligibility Application

Dear Parent/Guardian or CACFP Participant:

Participates in the Child and Adult Care Food Program (CACFP)

Name of Center

administered by the United States Department of Agriculture. Please help us comply with the requirements of the CACFP by completing, signing and returning the attached statement as soon as possible. This information is necessary to decide the level of CACFP reimbursement your family day care center is eligible to receive for the meals served to children and/or adult participants in our program. This form will be treated as confidential information. All participants in our program receive their meal free of charge, but the determination of eligibility category affects the amount of federal funding we receive.

A foster child enrolled in our program that is the legal responsibility of a welfare agency or court may be certified as eligible for free meals regardless of your household income. Please refer to the instructions on how to complete the Income Eligibility Application form.

* SNAP: Supplemental Nutrition Assistance Program (formerly the Food Stamp Program)

If your household is currently receiving benefits under the Supplemental Nutrition Assistance Program (SNAP) or Food Distribution Program on Indian Reservations (FDPIR) and your child is enrolled in a child care center you need to only list the case number sign and date the form. If your household is receiving benefits under the Supplemental Nutrition Assistance Program (SNAP), Supplemental Security Income (SSI), Medicaid or Food Distribution Program on Indian Reservations (FDPIR) and an adult in your home is enrolled in an adult day care center then you need to only list their case number sign and date the form. Otherwise an adult household member must complete form and disclose total current household income by source, and the names of all household members. The person completing the form must sign and provide a social security number and date the form when it was completed.

The Department of Agriculture defines a household as a group of related or unrelated individuals (not residents of a boarding house or an institution) who are living as one economic unit (i.e., sharing living expenses).

The income you report must be last month's total gross household income listed by source, for each household member. If last month's income does not accurately reflect your circumstances, you may provide your annual income or you may use last year's income if no significant changes have occurred. If your households' income is equal to or less than the amounts indicated for your households' size on the chart below, your provider may qualify for maximum reimbursement rates.

(Effective from July 1, 2015 to June 30, 2016)

Instructions for Completing the Income Eligibility Form (IEA)

[Participant Enrolled At the Center]

- ✓ List name of all enrolled participants that you are applying for which are in care.
- ✓ List each enrolled participant's date of birth and age.
- ✓ If you are applying for a foster child, list only one foster child per form. A foster child may be eligible for free meals regardless of household income.
- ✓ If the participant enrolled is in child day care center and receives benefits thru Supplemental Nutrition Assistance (SNAP) formerly, food stamps or Food Distribution Program on Indian Reservation (FDPIR), please indicate the appropriate case number in the spaces provided and sign the form. Do not use the number on your card. You do not need to complete household and income information. If the participant enrolled is in adult day care center and receives benefits thru Supplemental Nutrition Assistance (SNAP) formerly, food stamps, Food Distribution Program on Indian Reservation (FDPIR), Supplemental Security Income (SSI) or Medicaid, please indicate the appropriate case number in the spaces provided and sign the form. Do not use the number on your card. You do not need to complete household and income information.
- ✓ If you do not receive benefits and have no case number for participants enrolled at the center, you must complete all parts of the IEA (household and Income information)

HOUSEHOLD AND INCOME INFORMATION

(Not completed if case# is provided above)

- ✓ List all household members. A household is a group of related or unrelated individuals who are living as one economic unit (i.e. sharing living expenses).
- ✓ Provide the most current income by source for all household members. This can be based on the most recent information the month prior to completing the application
- ✓ The income reported on the application must include all income before taxes and before other deductions.
- ✓ A foster child, defined as a ward of the court or welfare agency, is to be listed separately so that there is only one foster child per form. Only the foster child's "personal use" income is listed. Personal use income includes:
 - Funds that are specified by the welfare agency as being for the personal use of the child. If no funds are specified, the funds received from the welfare agency are not to be considered as income. Record "0" on personal income
 - Money received in hand from any source. This includes, but is not limited to, funds received from trust accounts, from the child's family, and earnings from the child's employment other than occasional or part-time jobs.

SIGNATURE

- ✓ The adult family member completing the application must sign and date the application.
- ✓ If the enrolled participant is not in receipt of benefits and have not provided a case number, the adult family member signing the application must provide a social security number.
- ✓ If you do not have a social security number, check the "box" provided. Otherwise failure to provide the social security number, if you have one, will make the income application IEA invalid and will reduce the level of CACFP reimbursement your family day care center receive for meals served to the children and/or adult participants enrolled for care in their center.

DEFINITION OF INCOME

"Income means income before deductions from income taxes, employees' social security taxes, insurance premiums, charitable contributions, bonds, etc. It includes the following: (1) monetary compensation for services, including wages, salary, commissions, or fees; (2) net income from non-farm self-employment; (3) net income from farm self-employment; (4) social security; (5) dividends or interest on savings or bonds, income from estates or trusts; (6) net rental income; (7) public assistance or welfare payments; (8) unemployment compensation; (9) government civilian employee, or military retirement, or pensions or veterans' payments; (10) private pensions or annuities; (11) alimony or child support payments; (12) regular contributions from persons not living in the household; (13) net royalties; (14) other cash income. This would include cash amount received or withdrawn from any source including savings, investments, trust accounts and other resources that would be available to pay the price of a participant's meal.

DEFINITION OF HOUSEHOLD

Household means "family" as defined in Section 226.2 (family) FAMILY means in the case of children, a group of related or non-related individuals who are not residents of an institution or board house, but who are living as one economic unit or, in the case of adult participants, the adult participant, and if residing with the adult participant, the spouse and dependent(s) or the adult participant.

MENU RECORD BOOK

**(Please make as many copies that you need of the
production record page)**

INTRODUCTION

The Menu Record Book (MRB) has been developed for your use to record breakfast, lunch and snack menus and the quantities of foods used daily. The MRB serves as a basic record for auditing purposes.

The Menu Record Book is the **ONLY** form of documentation required by the State Agency to ensure sponsoring organizations serve meals that meet the United States Department of Agriculture (USDA) meal pattern requirements.

The purpose of the Menu Record Book is to provide you with useful information to:

- Plan and record menus and portion sizes which meet the USDA meal pattern requirement,
- Plan and record food items which are creditable following Federal and State guidelines,
- Record the calculated amounts of food needed for the number of persons planned,
- Record the actual number of meals served, and
- Maintain a daily, permanent record.

IMPORTANT !

The MRB must be filled out accurately and completely on a **daily basis**. This book must be available at any time for review by the Children, Youth and Families Department, Child and Adult Care Food Program or any other Federal (USDA) Program Audit Unit staff. Meals **cannot** be reimbursed unless they are recorded in the MRB. Failure to complete the MRB correctly may result in financial loss to the sponsoring organization.

IMPORTANT !

Menus should be planned two or more weeks in advance. In planning menus, consider the likes and dislikes of the children. Plan menus that children will enjoy, using a variety of foods, textures and colors. Make mealtime a relaxing time that children will look forward to everyday.

At times, menus are revised because of changes in food deliveries, seasonal availability, and inventory. If the planned menu is changed, take care to correct the menu record book to reflect the actual foods and amounts served.

If you serve SNACKS only, please contact the State Agency for a copy of the Snack Menu Record Book. If you serve INFANTS (from 0-12 months), you must follow the infant meal pattern and record meal in the Infant menu record book. If you serve children with SPECIAL NUTRITIONAL NEEDS, you must have on hand and follow the dietary prescription form in Appendix A from a recognized medical authority. The Family Nutrition Bureau Nutritionists are available for further information or technical assistance.

Please read the instructions and other important information on the next few pages carefully. This Menu Record Book should be used with the USDA Food Buying Guide for Child Nutrition Programs and the New Mexico Purchasing and Production Guide.

DEFINITIONS

The Children, Youth and Families Department (CYFD) reimburses sponsors participating in the Child and Adult Care Food Program (CACFP) for meals served. However, there are specific regulations regarding how the meals are served and what foods are served. The following definitions are used in the CACFP and it is important that sponsors become familiar with them.

Menu Record Book

The Menu Record Book (MRB) is the official record in which the food served and quantities used to meet the meal requirements for the USDA CACFP Meal Pattern are documented.

Creditable Foods These are foods used to meet the requirements for a reimbursable meal. Foods are creditable based on the following: 1) nutrient content; 2) customary function in a meal; 3) USDA regulations; 4) the Food and Drug Administration's (FDA) Standards of Identity; and 5) Federal and State Agency policies.

Non-Creditable Foods

These are foods that do not meet one or more of the five criteria described under creditable foods, above. (Also called "Other Foods" or "Extras".) A meal may contain both creditable and some non-creditable foods. Non-creditable foods are allowed, for example, to supply calories to meet the energy needs of growing children, or to improve acceptability of the rest of the meal. However, non-creditable foods may not be used to meet the meal pattern requirements. Some non-creditable foods are also not reimbursable.

Reimbursable Meals

Those meals that are served and meet the following requirements:

- 1) USDA meal pattern requirements;
- 2) Federal regulations; and,
- 3) State agency policies.

Non-Reimbursable Meals

Those meals that do not meet the criteria for reimbursement.

Non-Reimbursable Foods

These are foods which are non-creditable (i.e., do not meet the meal pattern guidelines) and non-reimbursable as part of total food costs. Most of these foods are very low in nutritional value and high in cost.

Family Style

This is a style of meal service in which both adults and children participate in setting the table, serving the food, eating together and cleaning up after the meal. All required components of the meal are placed on the table at the start of the meal. The minimum required amount of each meal component must be available for each child and adult. Children are encouraged to take a portion from each meal component

Component

One of four food categories of the USDA Meal Pattern Requirements, including:

- 1) Milk
- 2) Meat/Meat Alternates
- 3) Grains/Breads
- 4) Fruits/Vegetables

Disallowance

A meal or meals that are not approved for reimbursement by the State Agency because:

- 1) Meals are ***not recorded*** in the menu record book,
- 2) Meals are missing one or more of the required components. ***All of these meals will be disallowed;*** and/or,
- 3) Documentation in the menu record book and/or food receipts indicates that not enough food was served and/or purchased to give each participant the required minimum amount. In this case, the State Agency uses the USDA Food Buying Guide to determine how many servings of each component were available. ***If the number of servings available is less than the number of participants listed on the menu record book, the difference will be the number of meals disallowed.***

**USDA Food
Buying Guide**

The instrument utilized by State Agency review staff to determine the exact quantities of food components required, based on menu record documentation. The servings per purchase unit (sppu) indicated in this guide are used as the final authority when meals are disallowed.

**The New Mexico
Purchasing and Production Guide (NMP&PG)**

The tool used to determine the approximate quantities of food required in preparation. The quantities in this book are based on the USDA Food Buying Guide. In the NMP&PG, the amounts are rounded up; therefore, it is not a precise method to disallow meals.

Note *** Note *** Note ***

Disallowance can be the result of substandard record keeping, insufficient documentation in the MRB, preparation of inadequate amounts of food and/or not meeting the meal pattern guidelines.

Note *** Note *** Note ***

NEW MEXICO

Child and Adult Care Food Program

Summer Food Service Program

Foods served, as part of the CACFP/SFSP program, can be creditable or non-creditable. Some non-creditable foods may be served as an “extra or enhancement” to the CACFP/SFSP meal.

❑ **Creditable**

- 1) Foods that meet the requirements for CACFP/SFSP meal pattern components.
- 2) Foods that are found in the USDA Food Buying Guide, sections 1-4.
- 3) Creditable food categories include: fluid milk, grains/bread that are enriched or whole-grain, fruits and vegetables, and meat/meat alternates.

❑ **Non-Creditable**

Some foods are classified as “Other” or “Non-Creditable”. This means that they do not meet the USDA requirement for any component in the meal patterns of the food-based menu planning approaches.

- 1) “Other” foods are frequently used as condiments, seasonings, or enhancement to the meal. They are served and recorded as an “extra”.
- 2) Purchasing information on “Other” foods, can be found in Section 5 of the USDA Food Buying Guide.
- 3) Keep in mind that many of these food items are high in salt, fat, or sugar and provide little nutrition and “empty calories.” Consider carefully how often and in what amount you use them. Some examples are: butter, mayonnaise, barbecue sauce, coconut, cream cheese, jam, jelly or preserves, ketchup, salad dressings, and syrups.

❑ **Non-Reimbursable Expenses**

This category of foods is non-reimbursable. These are foods that may NOT be served, even as an “extra”. If these items are purchased, their cost **will not** be considered an allowable food cost.

Revised June 2012

Non-Creditable Food List:

These foods may not be served to meet any part of the CACFP/SFSP meal pattern requirements.

MEAT/MEAT ALTERNATES			
CHEESES -Cheese "product" -Imitation cheese of any kind -Powdered cheese	MEATS/FISH -Bacon -Chorizo -Cold Sandwich Meats not in USDA Food Buying Guide and without CN label -Pepperoni/Salami -Smoked snack sticks w/ beef & chicken -Beef/Turkey/Salmon Jerky -Pork Rinds -Wild game meats (if <u>not</u> USDA inspected) *Hot dogs or Frankfurters and Link Sausage such as Polish, Bratwurst, Italian or Vienna pose a choking hazard and are not recommended for children 1-5 years of age. OTHER FOODS (USDA Food Buying Guide-Section 5)			
Food items in this category may <u>not</u> be used toward the meal pattern requirements.			
SNACK ITEMS			
Corn nuts, popcorn, potato chips, pudding (canned or packaged), candy, coffee, gum, soda, and tea may <u>not</u> be used toward the meal pattern requirements.			
Milk			
The only item that is creditable toward the milk component is fluid, pasteurized milk. 2% or whole milk for children over the age of 2 years is <u>not</u> creditable for CACFP. Evaporated or non-fat dry (powdered) milk, sour cream, cream cheese, eggnog, or cream are <u>not</u> creditable as milk, but may be used as "other" foods.			

Non-Reimbursable Food List:

If these items are purchased, their cost will not be considered an allowable food cost.

SNACK ITEMS				
Potato Chips* Popcorn* *Note: Food items may pose a choking risk to children				
MEAT/MEAT ALTERNATES				
Wild game meats (not USDA inspected)				
OTHER				
Candy	Coffee	Gum	Soda	Tea

Note: This list is designed to be used with the USDA Food Buying Guide for Child Nutrition Programs to determine the creditability of foods. It **DOES NOT** include every food that is non-creditable or non-reimbursable in the NM CACFP/SFSP.

Revised June 2012

DOCUMENTATION FOR COMMERCIALLY PREPARED FOODS

To serve commercially prepared foods, such as pizza, burritos, or lasagna, documentation must be provided to support the fact that the ingredients provide the minimum amounts of meal component requirements. There are two ways to document these products:

- Child Nutrition (CN) label, or**
- Manufacturer's Analysis sheet**

What is the Child Nutrition (CN) Label? The CN label:

- is a voluntary Federal labeling program for the Child Nutrition Program,
- provides a warranty for CN-labeled products,
- allows manufacturers to claim a product's contribution to the meal pattern requirements.

A CN label will always contain the following information:

- the CN logo, which is a distinct border,
- the meal pattern contribution statement,
- a six-digit product identification number,
- USDA/FNS authorization,
- the month and year of approval.

NOTE:

A CN label does not mean the product provides the entire serving of the required CACFP meal component.

It is important to check the quantity of food contained per portion before assuming the product provides complete meal components. Also check with the State Agency to ensure the food items served are creditable.

Because of state guidelines, some products that do have a CN label are still **not creditable** in the NM CACFP. Be sure to check the list of non creditable & non-reimbursable foods before serving the item.

INSTRUCTIONS FOR COMPLETING THE MENU RECORD BOOK

✓The following information must be recorded at all times in the CACFP Menu Record Book:

Date	Food Items Used
Menu	Amounts Prepared
Size of Serving	Actual Number Served

See Example

(1) **Meal Pattern**

These are the types of food which must be served for each meal. Any extra foods which are served at lunch or supper should be indicated here.

(2) **Menu**

Record the food items you plan to serve, making sure they meet the required components for that meal. We recommend planning menus at least 2 weeks in advance.

(3) **Size of Serving**

This column lists the minimum serving size for 3-5 year old and 6-12 year old children. Circle the planned serving size in this column. Be sure to serve at least the minimum required amount.

(4) **Food Items Used**

Give a description of the food items prepared and offered at the meal. Abbreviate, if necessary. Use descriptive words as appropriate such as homemade, fresh, canned, frozen, etc. For example:

Frozen concentrated orange juice	Whole wheat bread
Chicken breasts	Boneless ham
Milk, 2%	Homemade chicken soup
Fresh oranges	

5) **Amounts Used**

This information is extremely important to the State Agency monitoring staff, for it determines whether enough food was prepared and offered to the children and/or adults.

This information needs to be recorded on a daily basis and as accurately as possible. The number of staff who eat with the children needs to be included when calculating the amount of food to prepare.

Record the size of the container for canned and bottled products and use "pounds" for fresh products.

For example:

1 #10 can of whole kernel corn
4 pounds lettuce

(6) Actual Number Served

The information recorded in this section must specify the actual number of people served. For improved accuracy, this section is divided into 2 groups:

Children:	Total number of children served.
Adults:	Total number of adults served.

Remember, when submitting your monthly claim for reimbursement, include only the number of children served. The program does not reimburse meals for adults except in adult day care centers.

REMEMBER . . .

Ensure that the amount of food used is at least the minimum amount required to serve *ALL* children and adults.

INTRODUCTION

The Menu Record Book (MRB) has been developed for your use to record breakfast, lunch, supper and snack menus and the quantities of foods used daily. The MRB serves as a basic record for auditing purposes.

The Menu Record Book is the **ONLY** form of documentation required by the State Agency to ensure child care centers serve meals that meet the USDA meal pattern requirements.

The purpose of the Menu Record Book is to provide you with useful information to:

- a. Plan and record menus and portion sizes which meet the USDA meal pattern requirement,
- b. Plan and record food items which are creditable following Federal and State guidelines,
- c. Record the calculated amounts of food needed for the number of persons planned,
- d. Record the actual number of meals served, and**
- e. Maintain a daily, permanent record.

The MRB **MUST** be filled out accurately and completely **on a daily basis**. This book must be available at any time for review by the Children, Youth & Families Department, Child & Adult Care Food Program or any other Federal Program Audit Unit staff. Meals **cannot** be reimbursed unless they are recorded in the MRB.

Please read the instructions and other important information on the next few pages carefully. This Menu Record Book should be used with the USDA Food Buying Guide for Child Nutrition Programs (Program Aid Number 1331) and the New Mexico Simplified Food Buying Guides. If you have any questions about this Menu Record Book or about the Child and Adult Care Food Program, please contact:

Dear CACFP Sponsor:

We are pleased to share with you our ***Menu Record Book for Infants***.

Feeding infants well is so important in setting the stage for a lifetime of healthy eating habits. Babies need to be talked to, played with, nurtured, held, and fed appropriately. Brain development is affected by the care-giving babies receive and the foods they eat. The nutrients in breast milk (and infant formula), and the tactile sensations of sucking help to stimulate pathways in the brain that control distress. This is one good reason to feed babies when they are hungry. Babies need to develop a sense of trust in the world to meet their needs, both physically *and* mentally.

Babies also need many nutrients to grow well, but they especially need:

- **Iron** – There is no substitute for iron-fortified infant formula or breast milk and iron-fortified infant cereal during the first year of life. Babies grow quickly, and iron is needed for blood, tissue, and brain development. Iron is an important micronutrient, which is required for many brain processes that help infants and children to concentrate, to think and to learn. Iron is part of the brain's neurotransmitter synthesis and myelination,¹ two processes that help infants develop recognition memory. Iron deficiency anemia is a very serious problem that can lead to a number of mental and physical problems for infants and children.
- **Dietary fat** - In infancy, fat supplies the energy for growth, carries fat-soluble vitamins and provides essential fatty acids. Breast milk contains the fatty acids docosahexaenoic acid (DHA) and arachidonic acid (AA). These fatty acids are found in high proportions in the structural lipids of cell membranes, particularly those of the central nervous system.² Since babies are growing so rapidly, their brain cells are increasing, which means they need more of these essential fatty acids. Most infant formulas contain linoleic and linolenic acids, which the baby's body can convert to DHA and AA, but not as well. Now, new credible formulas are starting to appear on the market that contains DHA and AA. This is good news for babies, and hopefully, you will see a price drop, as more of these store brand iron-fortified formulas with DHA and AA are available in the future.

A wonderful addition to our ***Menu Record Book for Infants*** is the ***Feeding Infants*** guide. This guide has up-to-date information on best practices for feeding babies foods which are safe and developmentally appropriate. You can download a copy at <http://www.fns.usda.gov/tn/Resources/contents.pdf>. Please use this guide and share it with all providers who work with infants. Also keep in mind that it is appropriate to share this information with parents.

Other important reminders about feeding infants and CACFP requirements:

- Meals containing breast milk only **are** reimbursable.
- Child care providers who are on CACFP and who care for infants must provide foods to meet the meal pattern requirements for infants.
- Child care providers must offer at least one infant formula, which meets program requirements.
- A parent or guardian may elect to decline the offered infant formula and supply another infant formula or breast milk.
- Between 4 and 7 months, when a baby is developmentally ready to accept them, solid foods must be served to make a reimbursable meal in the Child and Adult Care Food Program.
- Communication with parents is very important when deciding on the timing of introducing new foods to infants.

The Menu Record Book for Infants and the ***Feeding Infants Guide*** together contain the tools you need and a wealth of information to help you to feed infants well and successfully on the Child & Adult Care Food Program. If you have concerns, or need further information, please contact the Bureau Nutritionists in Albuquerque at (505) 841-4856.

Center Name

Dear Parent:

This _____ offers _____ Iron Fortified Infant Formula for infants less than 12 months of age as part of the Child and Adult Care Food Program (CACFP).
(Name of Center) (Name of Formula)

We are required to follow the Infant Meal Pattern for different age groups of infants at no additional charge. We are pleased to offer these benefits for as long as **this center is eligible to participate. To better meet your personal preferences and your infant's needs, you may choose from the following options.** Please check your selection, sign, and date this form. If your decision changes, you may fill out a new form. Also, if the situation changes such as your pediatrician changing the infant's formula, then a new form should be filled out as well. The 'old' form will be kept on file.

A form must be completed for every infant enrolled at our center.

**** Please Note: We are providing formula to be used at our center ONLY.** If your infant's current formula is different, we strongly recommend that you check with your pediatrician before switching. Remember, you may choose to use our formula at no extra charge or continue to provide your own brand.

DAILY INFANT MEAL RECORD

Instructions for Completing Daily Infant Meal Record for Infants

The following information must be recorded on the CACFP Meal Form:

1. **Date**

Record the date menu was served.

2. **Completed By**

Record the name of the person completing the form.

3. **Name(s) of Infant(s)**

Record the names of infants eating meals in appropriate age table.

4. **Completion of Columns**

- Using a (T), indicate iron-fortified formula/breast milk or iron-fortified cereal was served.
- Record the kind of vegetable/fruit or meat/meat alternate served.
- All formula and infant cereal served must be iron-fortified.

5. **Daily Infant Totals**

Complete Daily Infant Totals for each meal, each day in the box provided.

Please refer to the sample page opposite for the following:

Birth through 3 months

Scott is 2 months old and Hannah is 3 months. At this age, both infants only need to be fed breast milk or iron fortified formula.

4 through 7 months

Shannon has just turned 4 months old and Taylor is almost 7 months old. Shannon is still being fed breast milk, which is fine (all that is actually required on the CACFP). Taylor is being introduced to iron fortified cereal and vegetables/fruits (optional).

8 through 11 months

Mark and Maxine are older babies. They need iron fortified formula or breast milk, iron fortified cereal and/or meat/meat alternate and vegetables/fruits.

PRODUCTION
GUIDE

Introducing the New Mexico Food Purchasing and Production Guide

The New Mexico Food Purchasing and Production Guide has been designed to eliminate the need for complicated math calculations when determining the amount of food to prepare for your program. This guide will also save valuable time and increase accuracy when completing the Menu Record Book. This guide consists of tables that list foods most often used in Child Care Centers and the Summer Food Service Program. It is divided into six sections by different colors:

Section	Color
1 Meats/Meat Alternates	Pink
2 Fruits	Purple
3 Vegetables	Green
4 Grains/Breads	Yellow
5 Milk	Blue
6 Appendix	Tan

Each table in the guide shows the amount of food needed for 5 to 100 servings. The calculations have been done, based on the purchase units for 100 servings. The charts are set up with information taken from the **USDA Food Buying Guide for Child Nutrition Programs**, as follows:

Calculating Amounts to Purchase

You may want to calculate purchase amounts for specific foods on your cycle menu to make it easier to determine quantities to purchase. Use the following template and instructions to complete the calculations.

Blank template forms can be found at the end of the Appendix – please copy them for your use.

Before beginning the calculations, please locate the specific item you will be using in the USDA Food Buying Guide and “plug in” the correct information from Columns 1-6. Remember to include any footnote explanations from the USDA Food Buying Guide.

Template Col. 1		Purchase Unit: (Col. 2)				Col. 4 USDA Food Buying Guide Reference Page:	
		Servings Per Purchase Unit, Edible Portion: (Col. 3)		Purchase Units for 100 Servings: (Col. 5)			
		Col. 6					
Number of Edible Portions	As Purchased	Number of Edible Portions	As Purchased	Number of Edible Portions	As Purchased	Number of Edible Portions	As Purchased
5		30		55		80	
10		35		60		85	
15		40		65		90	
20		45		70		95	
25		50		75		100	

To calculate production amounts in increments of five:

- ❶ Take the figure from Col. 5, purchase units for 100 servings,
- ❷ Divide by 100 to get “X”
- ❸ Multiply “X” by 5, then 10, then 15, etc. all the way to 100 – rounding those figures to the nearest $\frac{1}{4}$ purchase unit. Record those figures in the corresponding “as purchased column.”
- ❹ Verify your figures and you’re done!

Helpful Tip . . .

You may want to visit: <http://www.fns.usda.gov/tn/Resources/foodbuyingguide.html> to open the USDA Food Buying Guide and use it to “cut and paste” information for Columns 1, 4, and 6.

How to Use the New Mexico Food Purchasing and Production Guide

Follow the steps below to determine how much food to purchase and prepare:

1. Find the **food item** you need in the guide. Food items are divided into five food components: Meat/Meat Alternates, Fruits, Vegetables, Grains/Breads and Milk. You may also look for the food item in the Appendix of Foods section provided at the end of this guide. If there is no table for the food item you will be serving, you must go to the USDA Food Buying Guide for Child Nutrition Programs.
2. Find the chart with the **portion size** you will be serving.
3. Find the **purchase unit** you will be using (by can size or by pound).
4. Decide on the **number of servings** needed for the food item.

Below are some examples of how to use this guide:

Q: How many pounds of ground beef are needed for 50 children at lunch (3-5 year olds)?

<div>Beef, Ground, fresh or frozen^{7, 8}</div> <div>no more than 20% fat</div> <div>Includes USDA Commodity (Like IMPS #136)</div>		Purchase Unit: Pound				1 ½ oz cooked lean meat	
		Servings Per Purchase Unit, Edible Portion: 7.89		Purchase Units for 100 Servings: 12.7

⁷Ground Beef is based on USDA, FSIS standard as published in the Code of Federal Regulations, Title 9, Part 319.15(a) chopped beef, ground beef, but with maximum fat content as listed here.

⁸USDA recommends that the very young, the very old, and those with weakened immune systems not eat undercooked ground beef. To be sure all bacteria are destroyed, cook meat loaf, meatballs, casseroles, hamburgers, and other dishes containing ground beef to the temperature set by your local and State standards and check by using a thermometer.

If the food you are serving is not listed in this guide, please refer to the USDA Food Buying Guide for Child Nutrition Programs.

Some fruits and vegetables are listed by the pound (Purchase Unit) and by size, (for example - apples, size 138). You may find that your produce distributor or food service distributor does not carry a specific size. Sizes and counts may vary from area to area, and therefore availability of a particular size may depend upon your distributor's source of supply.

CHILD AND ADULT CARE FOOD PROGRAM

INSTRUCTIONS: HOW TO CALCULATE AVERAGE DAILY ATTENDANCE (ADA)

- Step 1. At the end of each day; from your attendance, determine the number of different children (adult participants if Adult Day Care Centers) who attend that day and total.
- Step 2. At the end of the reporting claiming month, add the daily attendance totals. This figure is your total monthly attendance.
- Step 3. To determine ADA, divide the total attendance for the month claiming by the number of days the center operated and served meals.

The following is an example of a worksheet for calculating ADA for one claiming month.

Days center operated:

Number of participants each day:

1	July 1	40
2	July 2	39
3	July 3	35
4	July 4 (holiday) (Not considered an operational date)	0
5	July 5	35
6	July 8	35
7	July 9	40
8	July 10	29
9	July 11	29
10	July 12	35
11	July 15	40
12	July 16	39
13	July 17	39
14	July 18	40
15	July 19	38
16	July 22	39
17	July 23	38
18	July 24	32
19	July 25	38
20	July 26	35
21	July 29	40
22	July 30	40
23	July 31	40

Total monthly Attendance =

815

Divided by *Days center operated*=

/ 22

ADA =

37

If we had ended up with a total of 36.48 you would have to **round up** to the nearest whole number when calculating the ADA. If you sponsor more than one center, calculate each center separately and add totals.

Submitting a Claim

Instructions for independent centers
and sponsors of centers

Who can submit a claim?

- A principle or responsible individual
- Typically an administrator, director or other supervisory staff.
- Not recommended to have cooks or teaching staff be responsible for submitting claims.

How does a sponsor designate who can submit a claim?

- All persons who are authorized to submit claims must have a certificate of authority on file.
- Additionally each person must complete an EPICS external user request form.
- Each person must have a unique e-mail address and will receive a temporary password via that e-mail address

Collecting your records

For each site, location or care type:

- Meal count totals by meal type
- IEAS categorized by type
- Information on the days of operation
- Average Daily Attendance
- Total enrollment for the month

How the Claim is reported

- Report the ADA (Average daily Attendance) for each type of center.
- Many organizations will only have only one center or if there are multiple centers there may only be one type of center.
- Some organizations will have both multiple centers & multiple types of sites.
- There will be an entry field for each site

What is the URL?

Average Daily Attendance

Determined by adding the daily attendance for the month, then dividing by the number of days of operation

Attendance Records are used for calculating ADA

- Attendance records have:
- Date
- Child's Full Name
- Time In and Time Out
- Recorded Daily
- Exempt Organizations (HS, OSH, AR, EH/S)
Marking that child is present is sufficient

Days of Operation

EPICs will enter the number of days each center was in operation for the month based on the days that the center is approved to be open.

You can modify the number if EPICS does not guess correctly. In this case it is 7 days.

Calculation of ADA

Now use the 7 days to figure ADA. Divide total attendance by days open. $350/7 = 50.00 = \text{ADA}$

Suppose it was 349: $349/7 = 49.85$ Use 2 decimal places

Categorize all children into one of these 3 categories:

- **Free**
- **Reduced**
- **Paid**

Head Start Programs Homeless Shelters and “At Risk” programs

Do not require IEAs

Head start children qualify by income to be
in Head start

Children in Homeless Shelters are assumed
to be below the income cutoff

At risk qualify by geographical area

**State funded pre-K programs are
required to collect IEAs**

TRAINING
AND
MONITORING
EFFORTS

GUIDANCE FOR TRAINING AND MONITORING REQUIREMENTS FOR CHILD CARE CENTERS

Each sponsoring organization shall accept final administrative and financial responsibility for food service operation in all childcare and adult DAY CARE facilities under its jurisdiction.

Each sponsoring organization shall provide adequate supervisory and operational personnel for the effective management and monitoring of the program at all childcare and adult DAY CARE facilities under its jurisdiction. At a minimum, such program assistance shall include:

Pre-Approval Visits - Section 226.16d, (1) See Form

The purpose of this visit is to discuss program benefits and to ensure that the facility is capable of providing the proposed food service. Sponsoring organizations should use the Pre-approval visit form when a new center is added.

Pre- Operational Training - Section 226.16d, (2)

Training is absolutely vital if the Child and Adult Care Food Program is to operate properly at all facilities under a sponsoring organization. Each sponsoring organization must thoroughly train childcare facility staff members on all program duties and responsibilities before the facility starts its program. The training should include but is not limited to:

1. Program duties and responsibilities
2. Emphasis on Food Service Procedures
3. Program regulations and requirements of CACFP
4. Record Keeping requirements

Annual Training - Section 226.16d, (3) #13 Management Plan

Training must be provided at least once a year for all administrative and operational staff to review program requirements and update any correspondence from Child and Adult Care Food Program state office.

The sponsor must keep a written record to document training sessions. Documentation should include:

1. Location of meeting
2. Dates of each training session
3. Names of staff present
4. Topics covered

A sample agenda is attached for your use. You may use as is or modify according to your needs.

Additional Training

Additional training for all DAY CARE providers is provided through the Regional Early Care and Education Conferences (RECEC). These conferences are provided throughout various regions of the State. Guidance, materials and training which cover all aspects of child care are provided.

Monitoring Requirements - Section 226.16d, (4), (i) (iii) #15 of Management Plan

Reviews of food operation to assess compliance with meal patterns, record keeping, and other program requirements is essential. For any sponsoring organization's program to be successful and to run smoothly, it is essential that it closely monitor all food service Operations in its facilities. Adequately monitoring of the program will help to make it easier to correct any problems that arise during the operation of the program. Sponsoring organizations must review and monitor the food service operations in all facilities it sponsors. The sponsoring organization must keep documents on file of the location and date of each facility review, any problems noted, and the corrective action required. The sponsoring organization should also maintain records documenting assistance and guidance it has provided to a facility to correct any deficiencies .

Facility reviews must be scheduled according to the following requirements:

1. Child Care Centers *(Including one center sponsors and Adult Day Care Center)*

Review food service operations three times a year at each child care center. One of these reviews must be made during the centers first six weeks of operation and no more than six months can elapse between each review. The attachment (A) must be used for this first monitor. Attachment (B) checklist must be used to document the other (2) reviews. Attachment (C-) is a follow-up form for monitoring when deficiencies were found and corrective action is necessary.

2. Outside - School - Hours Care Centers

Review food service operations six times a year at each outside school hours care center. One of these reviews must be made during the centers first four weeks of operation and not more than three months can elapse between each review. The attachment A must be used for the first monitor. Attachment (B) must be used to document the other (5) reviews.

A copy of the monitoring efforts should be kept on file in your red binder for state agency reviews.

Daily meal counts. Each form dated day/month/year, days clearly identified, children identified by first and last name, meals clearly marked at the time the meal is served, added correctly & submitted regularly to the office. Any additional meals over the 3 per child per day (such as a fourth meal service) must be identified and not counted for the CACFP claim.

Receipts & Invoices- Should include only allowable expenses, Food & non-food separated.

Reminder for Everyone, Lack of documentation and/or following regulations results in meals that are not eligible for reimbursement. This means the center may be required to pay back money that has already been received and spent. The amount that must be repaid can be quite large. Therefore; Be sure to be in compliance with the requirements and document properly.
