

## Color-liscious

Includes 2 CEU hours for Early Childhood Educators

Combining colors can yield surprising results. What happens when you mix pigments? What happens when you mix colored light? Learn to use chromatography to separate colors and find the hidden colors in everyday objects such as markers and coated candies.

**Participants will leave with resources and ready to implement ideas.**

### Workshop Offered:

**Thursday, March 26, 2019 - 5:30-7:30pm**

**UNM-Gallup Early Childhood Services Center  
(at the former childcare facility),  
705 Gurley Ave, Gallup, NM 87301**
