Date   12/06/2016 📅

Spent   25.11   USD

Description *Optional*

Use this formula: $51.00 less $21.00 because the Daily Meal Cap is $30.00.
Next: take your receipts from the day and subtract that total from the Daily Meal Cap of $30.00

Example:

Breakfast:	$ 4.50	Next:	$30.00	Finally:	$ 4.89
Lunch:	$ 8.45		-$25.11		+$21.00
Dinner:	$12.16		= $ 4.89		= $25.89
Total:	= $25.11				

Now subtract $25.11 from the Daily Meal Cap of $30.00 leaving $4.89
Add that amount to the $21.00 reduction to meet the Daily Meal Cap requirement
Enter $25.89 in the "Additional Reductions" box below and the correct amount for the total spent for the day will appear in the "Spent" field.
